

ILLUSTRATIONS OF TOKENS, COINS, CHIPS, MEDALS ETC.

The following pages contain illustrations of most of the tokens and similar items in this catalog. We have labeled each lot with its lot number, state and name to make finding each lot in the catalog easier. In most cases these lots are illustrated in numeric order, but a few are out of place, so keep an eye on the lot numbers that accompany each illustration. Also, a few tokens and such are illustrated next to the description which you will see as you peruse the catalog. If you have any questions on any of these (or, actually, anything at all in the catalog), don't hesitate to call us!
