**Lot# 1532 Nevada Adhesive Revenue Stamp Group 1, 4c Red Collection [143722]**

Nevada Adhesive Revenue Stamp Group, 4c Red Collection. This is an important study group from a major adhesive revenue collection from the 4c red stamp. The reader is immediately referred to Michael Mahler's Stamp Taxes in Nevada, Adhesive Revenue stamps of NV 1865-

1873 published online or available through the Author. This book is unmistakably the quintessential reference work on Nevada revenue stamps and is the product of more than 40 years of a collection and research passion by Mahler. This passion, unfortunately is shared by Mr. Holabird. When I (FH) began to look at this collection, there was so much that I wanted to do in terms of splitting it out to offer to different collectors that it became overwhelming. With help from Mr. Mahler we decided to keep some of the study groups together because it offers a unique opportunity never seen before. In example this lot of 4c stamps is multiples of the total number previously known off document. Mahler's immediate comment was "Oh! The documents! Imagine what we can't see since these stamps have been removed off original documents." I (FH) have the same comment. This is a flabbergasting collection of about 167 4c adhesive revenue stamps. These stamps have a catalog value alone of well in excess of \$10,000. Varieties include cancellation dates, mining companies, banks, from different cities such as Carson, Goldhill, Virginia City. They also include varieties such as imperforated and roulette varieties. This is a remarkable group. City: State:Nevada Date: **Est. \$3000 - 5000** [Click here to view lot online](#)

Clifton post office had been the official post office for this area up to the time of Austin. This was sent one week after Clifton post office was closed. Coincidence? 2) Rarity-5. Very good strike. Although there is no year, this is 1864 by deduction by Gamett collection. Among other things, the cancel after

this one was in use starting on February 15, 1865. This is the second cancel used (size matches Gamett & Nelson's work and Gruber's work documented the only target cancel as type # 2) therefore, must be October 21, 1864. In ten days, Nevada would become a state, but this cover was sent during Territorial days. City:Austin, Lander Co. State:Nevada Date:1864 **Est. \$100 - 200** [Click here to view lot online](#)

**Lot# 4409 Nevada Central Railway Cover, Letter & Corner Advertising [130990]** 1881. Light strike but very readable. Letter is from George Crum who owned a ranch in Crum Canyon. The letter is difficult to read but seems to be about a custom mill piece - hence he was also a miner. The letterhead states 'Freight and Ticket Office'. To me this indicates that George

Crum was the station manager at Lewis at this time. Although the route to Lewis was officially called the Battle Mountain and Lewis railroad, it was really an extension of the Nevada Central Railway and, hence, the NCRy letterhead. This extension was completed one month before this letter was sent. Crum Canyon was very close to Lewis and George Crum could have easily been in charge of ticketing and freight. Includes history of the Nevada Central Railway. Includes a letter size broadside of 1899 change in prices Also information on George Crum and Crum Canyon. City:Battle Mountain, Lander Co.
